WELLNESS GETAWAY

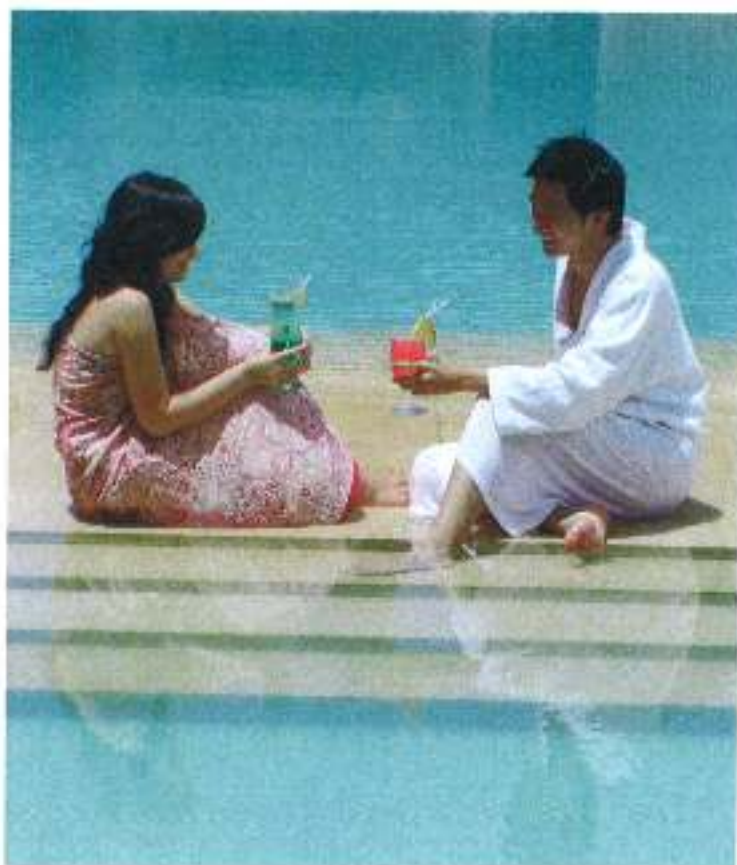

Enjoy a complete wellness lifestyle experience for both the body and the soul in the comforts of a majestically modeled medieval castle

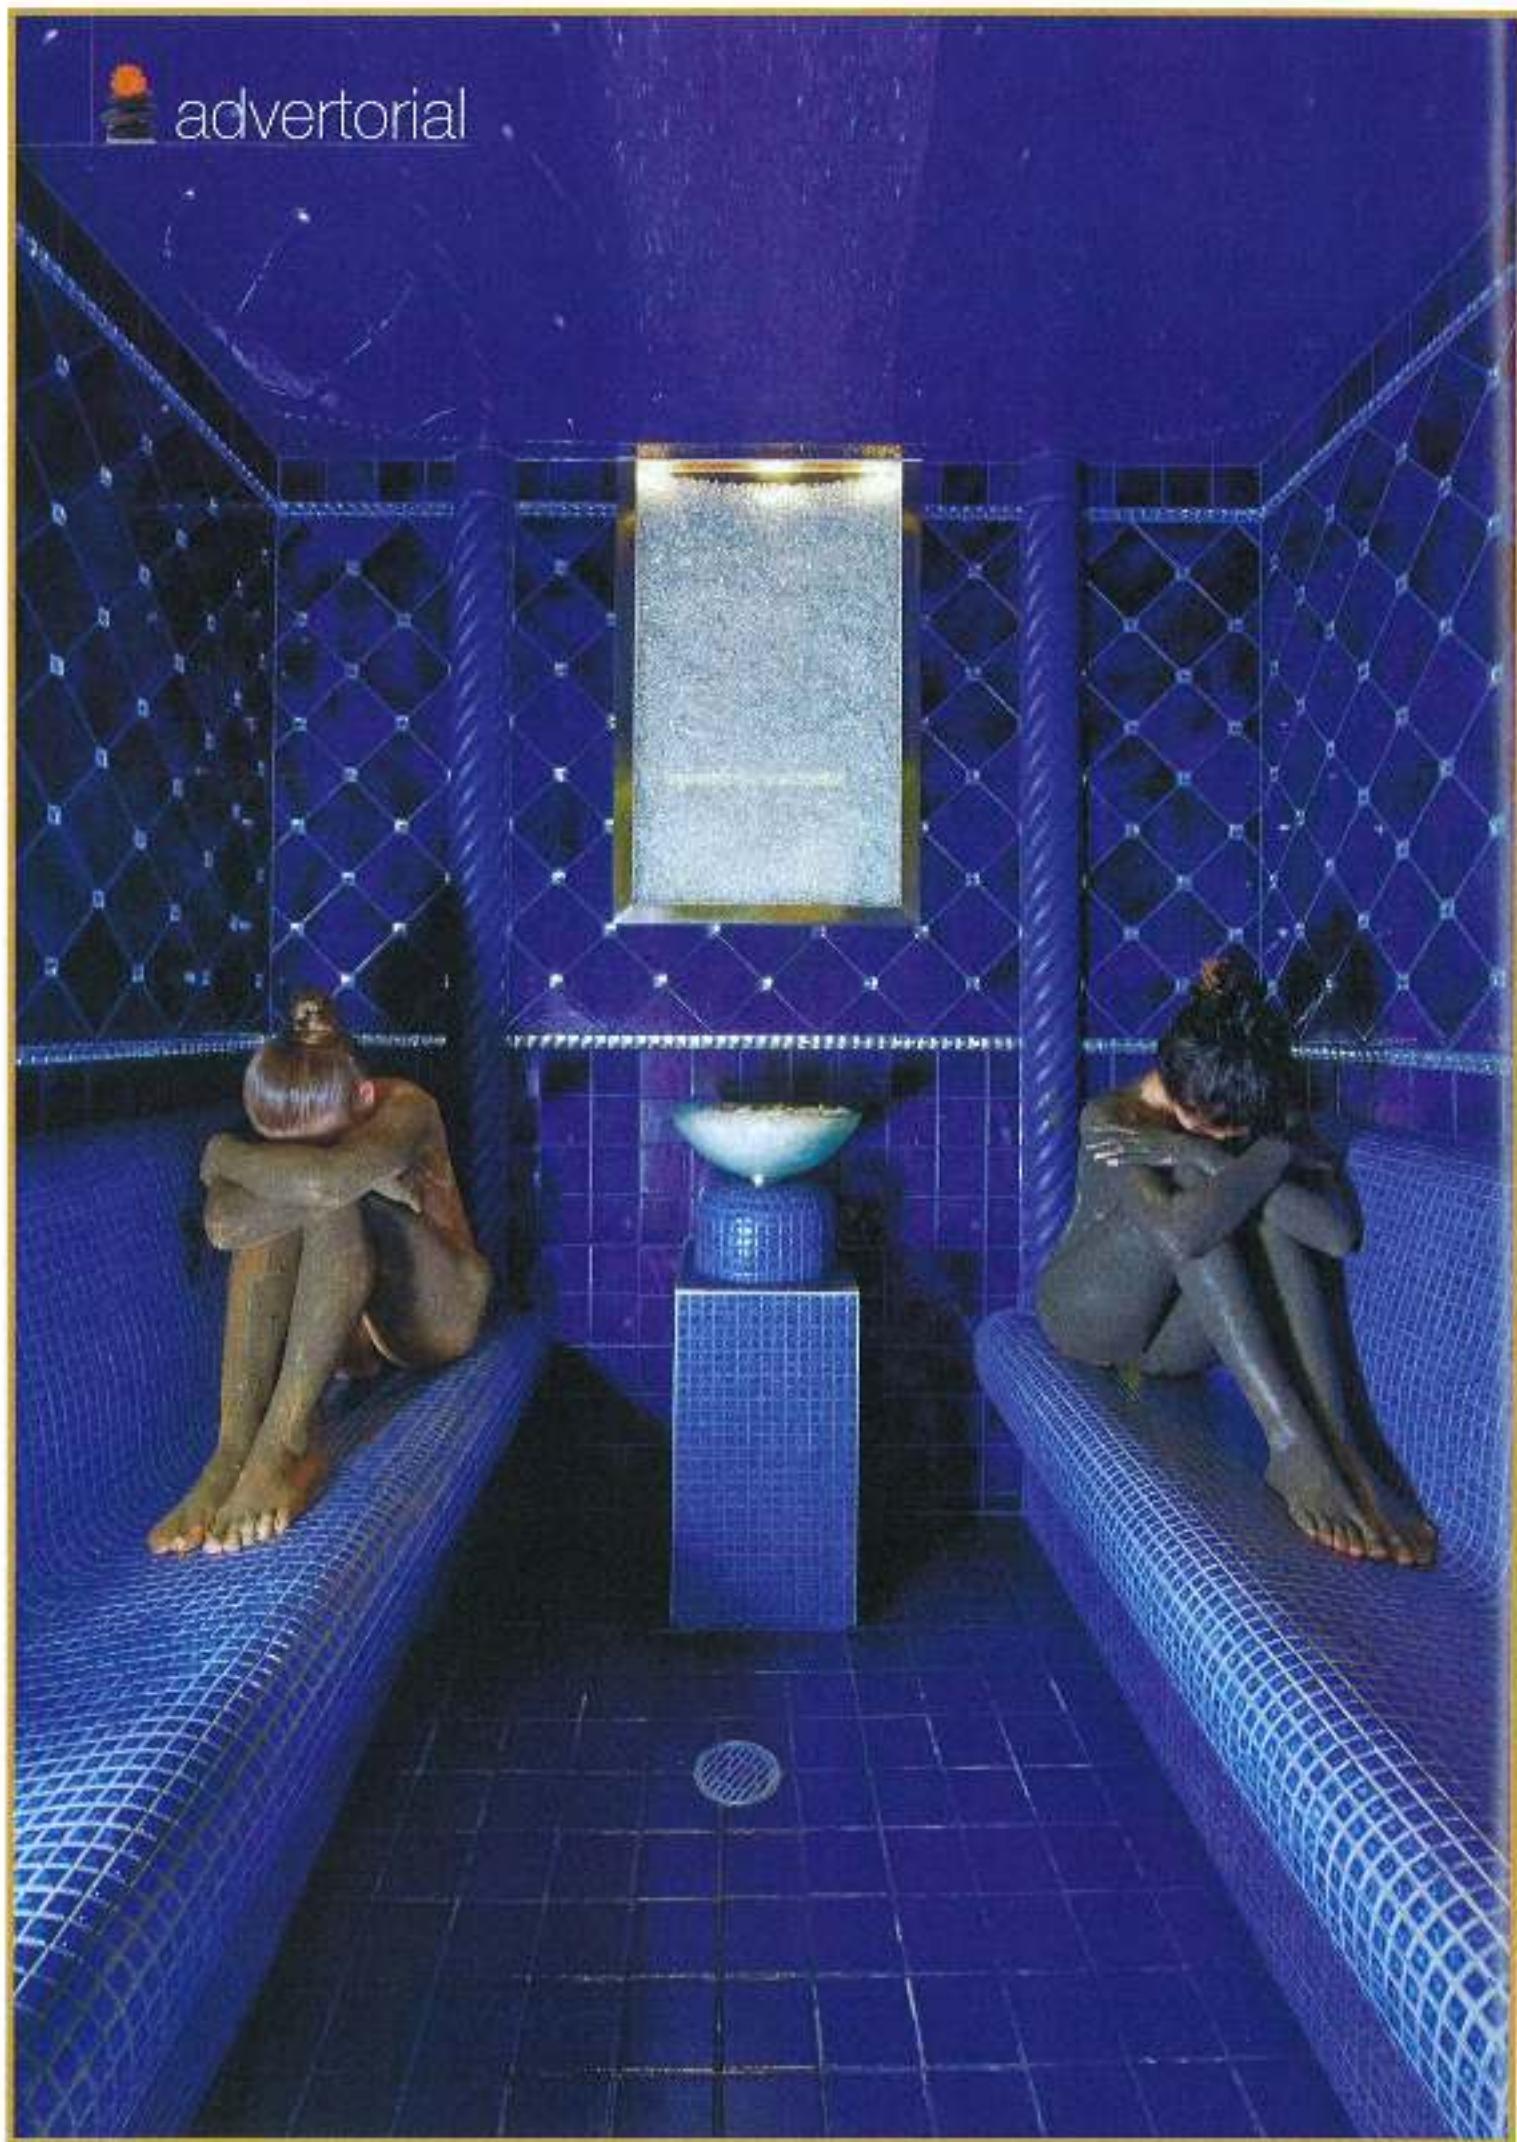

High up in the mountains of Berjaya Hills in Malaysia, life beats to a different rhythm. Standing regally among the serene, thick forest is The Chateau, the world's first organic and wellness destination spa resort. True to its title, The Chateau offers more than just a wellness retreat.

The resort takes extreme pride in its fine array of organic products. Adhering to its strong philosophy of being environmentally friendly, everything served in the hotel, whether it is the linen, room amenities or even the food is either organic or bio-degradable.

In The Chateau, guests are served with only the best of luxurious pampering within its four walls. The spa packages are tailor made to fit every individual's needs and are perfected with the help of in-house professional nutritionist, yoga and fit specialist. Every nutritionist and consultant in The Chateau is highly trained to have the best interest of the guest in mind.

La Sante, the resort's European inspired state of the art organic spa, is the heart of the resort. It is built to provide the best to its guest, infusing top notch

technology with natural remedies. Take for instance, the herbal infused sauna chamber; it uses the natural benefits of herbs to help rejuvenate the body. On the other hand, the Salt Grotto also known as the Mud Chamber is embedded with Swarovski crystals. This treatment is most beneficial to those suffering from asthma and other lung diseases. To top it off, exposing the skin to salt is known to have a positive effect against skin ageing.

The fully equipped spa also houses the Aquaveda bed which has automated body exfoliation facility, relaxation whirlpool, couple treatment room and many other spa facilities. As for its products, the spa features the exquisite line of VOYA products which strive to bring the full power of nature in its purest form.

To complete the organic journey, The Chateau's kitchen ignites a scrumptious and gastronomic experience. L'Assiette, the Michelin standard French Fine Dining serves only the best of French cuisine. La Vie, an all day dining on the other

hand serves a broad spectrum of international selections. Belle Vue, the tea room, is a perfect location for an afternoon tea with a breathtaking view on the terrace.

For lounge lovers, there is C'est Bon-lobby lounge and Salon-cigar lounge where a huge selection of organic and non-organic wines and cocktails as well as the best selections of cigars are served.

The Chateau is in essence a relaxing sanctuary that caters to the best of wellness in a sophisticated ambience. Labeled as the world's first organic wellness spa resort, The Chateau offers the ultimate in health and wellbeing enrichment. A perfect escape to recharge your body and mind is what it's best described as. 🌿
