# An Organic Experience

The Chateau offers an idyllic haven to complete your quest for a lifestyle transformation and helps you explore the path leading to total wellbeing

**A** complete wellness lifestyle experience for both the body and soul in the comforts of a majestically modeled medieval castle, The Chateau, is the world's first organic and wellness destination spa resort. Embracing organic wellness as a way of life, The Chateau is one of Malaysia's eco-friendliest resorts both in location and its operational practices.

La Sante, the resort's European inspired state-of-the-art organic spa is the heart of the resort. It is built to provide the best to its guest, infusing top notch technology

with natural remedies. Take for instance the herbal infused sauna chamber; it uses the natural benefits of herbs to help rejuvenate and heal as it is being absorbed by the body through the light mist. On the other hand, the salt Grotto also known as the Mud Chamber is embedded with millions of Swarovski crystals to help it maintain the presence of iodized negative ions in the environment which help destroy harmful micro-organisms. This treatment is most beneficial to those suffering from asthma and other lung diseases. To top it off, exposing the skin to salt is known to have positive effect against skin ageing

The fully equipped spa also houses the Aquavoda bed which has automated body exfoliation facilities, relaxation whirlpool, couple treatment room and many other spa facilities to offer the best to its guest. As for its product, the spa also features the exquisite line of VOYA products which strive to bring the full power of nature in its purest form.

Integral to the wellness experience, the spa consists of specially designed packages of three, five and seven night wellness retreats where guests undergo specially tailored daily fitness and wellness programmes designed to meet each individual's needs and health goals.

The Chateau prides itself on providing its guests with unprecedented organic gourmet dining experiences that will delight even the sharpest of palates. L'Assiette, the Michelin standard French Fine Dining serves only the best of French cuisine. La Vie - an all day dining on the other hand serves a broad spectrum of international selection. Belle Vue - the tea room is a perfect location for an afternoon tea with a breathtaking view on the terrace. For the lounge lovers, there is Cest Bon - lobby lounge and Salon - cigar lounge where a huge selection of organic and non-organic wines and cocktails as well as the best selection of cigars are served.

Delivering a luxurious wellness experience in the most ecologically sensitive way possible with unsurpassed standards is what The Chateau aims at. ■
